

Project Design Phase-II

Data Flow Diagram & User Stories

Intelligent Vehicle Damage Assessment & Cost Estimator for Insurance Companies

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

FLOWCHART

User Stories

Use the below template to list all the user stories for the product.
